

Individual assessment card

Vocational technical education – Economy Technician

Levels and progression

The gained skills and qualifications are assessed over three levels: level one, two and three. These levels correspond to the levels used for other qualifications within the national qualifications framework.

Key Skills Level 1 - the student acquired basic skills and can take responsibility for some basic decisions. The student isn't able to work in on his/her own and requires constant substantive supervision. He/she has the communicative abilities at a basic level.

Key Skills Level 2 - the student is capable of responding to the demands of more complex activities. He/she demonstrates more explicit reasoning ability and personal responsibility in making decisions about how tasks are organized. He/she requires substantive supervision while exercising some more complex tasks.

Key Skills Level 3 - the student has substantial autonomy and responsibility for managing activities. He/she has ability to develop a strategy for using key skills over an extended period of time, monitor and critically reflect on progress and adapt strategy, as necessary, to achieve the quality of outcomes required. He/she apply his/her key skills in communication, working with others and problem solving, in an integrated way, in order to improve his/her learning and performance in managing professionally challenging work.
